COMPASS SPEC SHEET

RECOIL BASIC/LITE/e

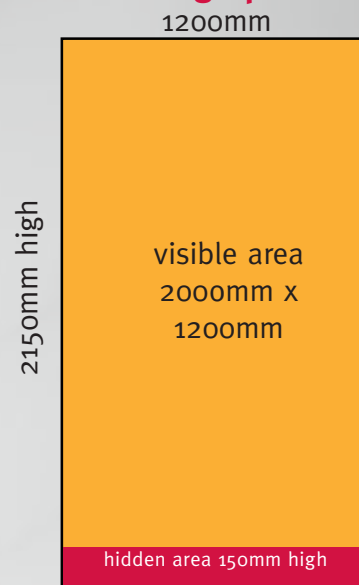

recoil basic/lite/e 850mm graphic size

recoil basic/lite/e 1000mm graphic size

recoil basic/lite/e 1200mm graphic size

COMPASS Bannerstands

Compass like artwork in Indesign, Illustrator and print ready PDF. If possible produce all artwork as a single page with 3mm bleed and at 1/4 finished size.

Please be aware that the bottom 150mm of the recoil graphic rolls into the cassette so will not be seen.

Scans should be in CMYK and we like files to be approx. 40 Mb per finished square metre. If, for example, you have a single shot over the complete 850mm wide recoil the file size need to be approx. 70 Mb. Logos etc. are always best as a vector file such as illustrator EPS.
